Experience

Fidelity Investments — Salt Lake City, UT
Software Engineer — June 2024 – Present
Associate Software Engineer — Jan 2023 – June 2024

- Owned delivery of a communications-platform migration to production, including moving an existing data-enrichment workflow into Java 21/Spring Boot with integrations to three APIs.
- Modernize legacy SOAP services as part of an initiative spanning 80+ WSDLs, using a phased AI-assisted workflow to generate OpenAPI specifications, Spring Boot components, and tests; manually review generated logic against legacy implementations before integration.
- Resolved three critical defects in an AWS Lambda and Microsoft Graph email-ingress service within a two-week sprint, supporting the replacement of a legacy email-integration application.
- Develop production Java and Spring Boot services for enterprise workflow integrations; modernize legacy Java 8 applications to Java 21.

Velvet / Decheque — Salt Lake City, UT
Software Engineer Intern — Sep 2022 – Jan 2023

- Migrated workflows from Bubble.io to Next.js, building reusable JavaScript components and integrating third-party APIs.
- Developed Selenium tests that simulated user interactions across application workflows; maintained features in the existing Bubble.io application.

Intermountain Healthcare — Salt Lake City, UT
Software Engineer Intern — May 2021 – May 2022

- Built an Angular password-validation feature with real-time visual feedback, showing which password requirements were satisfied as users typed.
- Contributed to API development and maintenance in a Spring backend using Spring Security.

Technical skills

Languages: Java, Python; SQL (coursework/projects)
Backend & Frontend: Spring Boot, REST APIs, OpenAPI, React, Next.js, Angular
Cloud & Infrastructure: AWS Lambda; exposure to Amazon EKS and OpenTofu
Delivery & Testing: Git, Jenkins, Maven, CI/CD, JUnit, Mockito, Selenium, Bruno
AI Coding Tools: Claude Code, GitHub Copilot

Education

Georgia Institute of Technology — Online
Master of Science in Computer Science (OMSCS), in progress — Aug 2026 – Expected 2028
University of Utah — Salt Lake City, UT
Bachelor of Science in Information Systems — Dec 2022

Personal project

RateMyGolfCourse — In development
Next.js, React, TypeScript, Tailwind CSS, Supabase

- Developed a golf course discovery prototype with searchable course listings, dynamic detail pages, and browsing by stored ratings and review counts.
- Integrated Supabase-backed course queries and email/password authentication, with loading and error handling for course search.
